

January 15, 2014

Dear Valued Customer,

I am delighted to inform you that AEA Investors LP today closed on its agreement with Siemens to acquire Water Technologies. The new company will be called Evoqua Water Technologies LLC. Thank you for your support and patience throughout the divestiture process.

We kindly ask that you update your business systems replacing the name of Siemens Water Technologies LLC with Evoqua Water Technologies LLC. No other changes are necessary. The name change to Evoqua Water Technologies does not affect WT's legal entity registration and will have no impact on your contract. WT's existing federal tax identification, bank routing, electronic funds transfer numbers and D&B identifier remains unchanged.

The name change will not affect your interaction among the WT Business representatives and employees with whom you currently correspond. If you have questions, please continue to address them to your existing WT contacts.

The new company will continue to focus on municipal and industrial water and wastewater treatment and services. Existing management will remain and work together with AEA's Evoqua team who have years of water experience to serve you, add value for you and deliver without disruption.

Our new name Evoqua originates from the definition of "evoke" to re-create imaginatively, as well as "evolve," to change into a better or more advanced state, and a shortened version of "aqua." The name symbolizes a transformational step of an established industry leader and signals our intent to respond to the evolving needs of the water and wastewater market. It is pronounced e (long "e") vo (long "o") qua.

Evoqua has a long and proud history. We will continue to offer our proven trusted brands such as Wallace & Tiernan, MEMCOR, Envirex, JetTech, Ionpure, JWI, Vantage and many others. Now under ownership of AEA, one of the most respected private equity firms with more than \$6 billion under management backed by leading executives and institutional investors from around the globe, we are eager to begin our next chapter of increased entrepreneurship, flexibility and growth.

Again, thank you for your support. We look forward to continuing to serve you.

Sincerely,
Lukas Loeffler
CEO – Evoqua Water Technologies
